

John Smith

Senior Machine Learning Engineer | john@email.com

WORK EXPERIENCE

TechVision AI -- Senior ML Engineer (2022-Present)

- Deployed fraud detection API serving 10,000 requests/day with 99.9% uptime
- Built RAG pipeline (ChromaDB + Claude) cutting research time by 60%
- Led monolith to microservices migration, deploy time from 3hr to 15min
- Fine-tuned BERT classifier achieving 94% accuracy on intent classification

DataCorp -- ML Engineer (2020-2022)

- Built Airflow and Spark pipeline processing 5M records per day
- Reduced model inference latency by 40% through quantization and batching

SKILLS

Python, PyTorch, scikit-learn, FastAPI, AWS, Docker, Kubernetes, PostgreSQL, Redis

EDUCATION

BS Computer Science, State University, 2020
